INTERNATIONAL
Advancing Security Worldwide®
Indonesia Chapter 266

Now is not the time to be complacent.

Thanks in part to the global slowdown, executive protection professionals are facing unprecedented challenges—downsizing, layoffs, and a general negative attitude toward senior executives at every level. Training continues to be essential, especially now when executive protection is being asked to do more with less.

This comprehensive program is designed to cover the skills and procedures required to provide effective personal protection and meet the needs of a full range of student interest, from entry-level to seasoned practitioners—planning, research, intelligence, networking, and the art of executive protection. Real case studies are used, ones that reinforce these techniques and teach best practices—with less emphasis on the GUN.

Whether top corporate executives, wealthy or famous families, dignitaries, diplomats, religious leaders, celebrities, politicians, or military leaders—they are counting on you to guide them through the inevitable risk-prone situation! How vulnerable is the person you were hired to protect? What perils should you be anticipating? Are you gambling with their safety at home, in the workplace, on the road?

IMMEDIATE BENEFITS

- Learn executive protection's underlying philosophies and the mindset that drives both the protection specialist and a professional protection program.
- Understand what it takes to succeed in this highly specialized profession and how to prepare for an entry-level position.
- Develop the benchmarks of a thorough advance survey and participate in a tabletop exercise.
- Know what is meant by the "choreography of protection" and understand its critical significance.
- Review real-world residential, workplace, and transportation issues.
- Learn the fundamentals and the nuances of domestic and international travel security.
- Examine transportation security issues and bullet-resistant vehicles.
- Learn counter-surveillance techniques and their application to modern protection methods.

WHO SHOULD ATTEND

- Corporate security directors
- Professionals interested in EP's principles and practices
- Protective service practitioners who need more information on the concentric theory of protection
- Seasoned professionals transitioning into executive protection
- HR, security force managers, and others with personnel protection responsibility
- Newcomers to the field of protective services

PROGRAM OVERVIEW

DAY ONE

Executive Protection Orientation

This introduction dispels the negative view of the bodyguard and introduces the concept of the EP specialist.

Threat Assessment

The foundation of all protection programs is the formulation and analysis of the data and intelligence needed to establish a framework for developing the protective effort.

Advance Procedures

The critical stage of protection is the advance. Receive an in-depth analysis of the advance survey, pre-departure preparations, etc. A tabletop exercise allows you to decide upon, provide for, and execute the advance.

Choreography of Protection

Learn the proper positioning required to support the concentric theory of protection.

Counter-surveillance

Learn techniques that support the protective effort by *watching the watchers*.

Proper Dress and Etiquette

Appropriate attire is necessary to look professional during the workday and after hours. Teamwork, attitude, and working relationships will also be covered.

DAY TWO

Transportation Security

Focus on automobile security—selecting the right vehicle, examining limitations and advantages, securing vehicles against attack, and conducting a proper search. Bullet-resistant vehicles and their components will also be covered.

Domestic and International Travel

Learn how to develop a network of contacts and nurture their resources to assure continuity of the protective effort outside the corporate home base. Health concerns, facilitation, communication, and privacy issues are covered.

The Lone Gunman

Understand the thinking and behavior of individuals who have attacked or approached prominent public figures in the United States and then discuss protective intelligence strategies.

Managing and Directing an Executive Protection Program

With its 24-hour operations, unpredictable conditions, multiplicity of details, and life and death stakes, executive protection shares many characteristics with the military and law enforcement professions. Examine the most critical leadership behaviors and how a good leader performs.

HOURS, FEES, HOTEL & OTHER INFO

Registration Hours

Tuesday, September 21st, 2010
7.30 am-8:30 am

Program Hours

Tuesday – Wednesday, September 21-22nd, 2010
